A Nuclear Energy Solutions Provider

Optimizes reporting with Alteryx APA™

1

Goal

"We needed to be able to **attack analytical problems with more speed and agility** and **be able to iterate** so we could keep momentum with our customers going."

2

Strategy

"We now automate customer reports that **match up our solutions data with specific needs of customers** in just a couple of clicks."

3

Results

"We **earned an upwards of $250,000** on data services for customers we would not have received without Alteryx, and we easily **saved $150,000** in costs."

4

Next Steps

"We are looking at acquiring some companies down the line, and we're looking at **using Alteryx tools to align finances.**"
