

# Integratis Models Critical Demand And Resource Scenarios With Alteryx

1

## Goal

"It is simply not good enough to go on instinct and minimal data—you need that robust body of evidence combined with forensic analysis to **create real and meaningful insights that support decision-making.**"

2

## Strategy

"Alteryx allows us to **predict and model multiple potential outcomes** which helps our clients plan more effectively."

3

## Results

"We can use Alteryx to model scenarios relating to demand or resources, and **help our clients understand what the immediate future holds,** and how it could change in an uncertain world."

4

## Next Steps

"We are continuing to **expand our use of Alteryx** to enable us to model our clients service provision geographically, combining multiple data sets to **create really meaningful geo-spatial insights for our clients.**"
